ASEA

ASEA FAST 4WARD CHALLENGE CONTEST RULES

PROMOTION PERIOD

January 23, 2016–April 30, 2017

ELIGIBLE PARTICIPANTS

All ASEA associates in any open ASEA country are eligible to participate in the Fast 4ward challenge.

THE FAST 4WARD CLOCK

To start your Fast 4ward clock, visit your ASEA virtual office, click on the Fast 4ward banner, and follow the prompts to begin your 14-day period. Once you start the clock, it will run for 14 days and cannot be paused, stopped, or started over until the end of the 14 days.

All associates and preferred customers enrolled on or after the calendar day you start your Fast 4ward clock and all enrollment PV tied to those new associates will count toward your Fast 4ward qualification.

You can complete as many Fast 4ward challenges as you can fit into the promotional period, beginning a new one every 14 days (technically 15—you may start your next Fast 4ward challenge the day after the current one runs its full 14 days). The cycles cannot overlap.

You may start your Fast 4ward clock any day of the week. The last possible day to begin a 14-day period in the contest is April 30, 2017.

COMPLETING THE CHALLENGE

Within the 14 days that your Fast 4ward clock is running, you must:

- Enroll a minimum of 4 new associates or preferred customers, each with a minimum 100 promo points AND a minimum 1 case ASEA or 4 tubes RENU 28 autoship.
- Achieve a minimum cumulative 800 promo points.

Preferred Customer & Associate Enrollment Points:

- 1 case ASEA = 100 points
- 1 tube RENU 28 = 25 points

THE REWARD: FAST 4WARD PACK

Each successful Fast 4ward challenge completed earns you a Fast 4ward pack, which has a value of \$130 US.

The Fast 4ward Pack includes:

- 25 RENU 28 sample tubes
- 25 RENU 28 brochures
- 1 RENU 28 Before and After booklet

REDEEMING YOUR FAST 4WARD PACK

Once you successfully complete a Fast 4ward challenge, the Fast 4ward Pack will be available in your personal shopping cart. You will have 14 days to redeem your pack. You are responsible only for shipping and handling.

The Fast 4ward Pack is nonrefundable, and replacements are only available when proof of damage is submitted and approved through the ASEA Associate Support department. Any damage reports must be submitted within five business days of receipt of order.
