

ASEA®

ASEA REDOX™ Clay Mask

Want a fresh start and a matte finish? The ASEA REDOX™ Clay Mask lifts away oils and impurities—for a healthy, clarified, and energized appearance. Enjoy the benefits of naturally absorbent and detoxifying bentonite clay.

Experience the difference in healthy skin renewal

Only ASEA REDOX™ Clay Mask contains active redox ingredients. By using ingredients natural to the human body, your skin will be beautified and cleansed. Our patent-based process creates vital molecules by taking refined salt and purified water molecules.

Bentonite clay from the earth

Sodium bentonite clay is an absorbent clay that forms from aged volcanic ash and has been used for thousands of years as a detoxifying skin treatment. The main use of bentonite clay is for absorbing particles on the skin. Bentonite has a negative surface charge while working like an absorbent that draw outs of dirt, oil, and makeup residue to prepare your skin for the ASEA REDOX™ Clay Mask.

Unlock your natural glow

Healthy, beautiful skin starts with a fresh slate. In fact, the ingredients in ASEA REDOX™ Clay Mask deeply clean and detoxify pores, leaving your skin smooth, radiant, and younger looking. Feel relaxed and renewed appearance as ASEA REDOX™ Clay Mask immediately goes to work absorbing oils and impurities with clarifying bentonite clay. This quick-drying clay removes dead epidermal cells from the surface of your skin, for a complexion that looks visibly renewed and refined—from the very first time you use the ASEA REDOX™ Clay Mask. Our commitment to creating simple, clean formulas which are designed to work with your skin homeostasis helps change the appearance of skin into a visibly smooth, renewed, and radiant complexion.

ASEA REDOX™

Clay Mask

Ingredients

Aqua, Bentonite, Sodium Magnesium Fluorosilicate, Sodium Phosphate, Phenoxyethanol, Benzyl Alcohol, Sodium Chloride.

ASEA REDOX™ Clay Mask is produced in our facility that is FDA-registered (Food and Drug Administration) and NSF (National Sanitation Foundation) certified and backed by an independent laboratory.

Directions

Apply an even layer on clean, dry skin. Avoid the under-eye area. Leave on for 5-10 minutes, depending on comfort and skin type. Rinse thoroughly with warm water. For best results, use 2-3 times a week on non-consecutive days. Use as a full mask or to spot-treat imperfections.

Caution

For external use only. Avoid contact with eyes. If irritation occurs, reduce time applied, days of use, or discontinue entirely. Keep tube out of direct sunlight.

- Formulated with responsibly sourced bentonite clay to help detoxify skin and reduce pore size
- Cleanses and detoxifies skin by drawing out dirt, impurities, and oils that can cause clogged pores while enhancing the appearance of clarity to reveal more refined-looking skin
- Instantly refines skin's texture
- Reduces surface oil on skin and controls shine
- Formula is non-comedogenic so it won't clog pores, and is suited for all skin types
- Fragrance-free

Product safety:

The company conducts ongoing research to ensure its products are safe and that they meet the highest level of production standards. Details on ASEA Safety studies and product certifications can be found on aseaglobal.com.
