Energy

ASEA Redox™ Performance

Performance that's
Powered by Redox™

Take on your next big challenge with our ASEA® Redox Performance products and achieve more than ever before. Leveraging decades of redox research, ASEA has developed ASEA Energy to target the sources of your fatigue and give you more energy at a cellular level. A proprietary blend of vitamins and scientifically proven herbs have all been specifically selected to help your cells achieve their natural redox homeostasis and perform at their highest levels.

We power potential™

Fight fatigue with sustained cellular energy

Don't let day-to-day stress drag you down. You get good sleep, try to eat right, and exercise, but sometimes you still feel like you could use a little extra help getting through your day. ASEA® Energy leverages select Powered by Redox™ ingredients to provide a long-lasting source of cellular energy you can count on—whether it's home, work, or everything in between.

Tap into ASEA® Energy

We're all looking for a reliable source of energy to get us through the day—something to power our innate potential to feel our best. But it can seem challenging to find a product that delivers results without the negative impacts or short-term energy boost many other energy products have. Luckily, ASEA Energy is your new go-to, good-for-you source of sustained cellular energy. It's not just about increasing your output, but actually generating and maintaining more energy at the cellular level.

Feel the energy boost

Our unique blend of ingredients helps support cellular performance with increases in coenzymes and antioxidants function, which leads to increased energy output. Plus, it supports increased metabolism for more energy production, starting with your cells.

- Supports the increase of many coenzymes involved in cellular energy metabolism.
- Boosts production of antioxidants that support energy metabolism.
- Supports the formation of ATP, an essential source of energy required for cells to function efficiently.
- Raises levels of key chemicals in the brain for increased energy.

Energy

ASEA Redox™ Performance

Ingredients

L-Arginine, Citric Acid, Taurine, Natural Flavors, Alpinia Galanga Root Extract, Panax Ginseng Extract, Green Coffee Bean Extract, Guarana, Stevia, Silicone Dioxide, Vitamin B3, Vitamin B6, Folic Acid, Vitamin B1

Anytime, anywhere energy

Take a packet with you wherever you go and drink when convenient.

 Our powdered mix is easy to travel with and simple to use.

 Just open and add one stick pack to your preferred beverage.

 Shake or stir to incorporate and drink all the contents within 15 minutes.

Adjust the type of beverage or amount of liquid for more or less citrus flavor.

More balanced cellular energy

Our ASEA® Energy also helps relieve oxidative stress, protects against and inhibits DNA damage, and supports positive gene expression. Together, this supports natural redox homeostasis and balances your energy levels instead of having large ups and downs.

- Supports cellular redox balance.
- Helps in maintaining balance between free radicals and antioxidants.
- Contributes to the reduction of tiredness and fatigue.

Ingredients that support cellular performance

ASEA Energy's blend of Powered by Redox™ ingredients ignites sustained physical and mental energy by helping your cells reach redox balance.

Proprietary REDOXEnergy blend

- **Natural Guarana** - Guarana provides the energy you need to be alert while supporting cellular redox balance. See improved alertness with this natural source of caffeine. Less caffeine than a cup of coffee.
- **Taurine** - Taurine has been shown to improve your focus and boost your mood while promoting brain cell protection.

Supporting Energy blend

- **Ginseng Extract** - Combats oxidative stress and boosts cognitive energy output.

Feel good about feeling good

ASEA Redox Performance products have been developed based on redox principles. Plus our proprietary ingredient blends don't rely on artificial additives.
