ASEA™

NOW IS

your time

A discovery so universal that it had the potential to impact many lives all over the world.

Would you want to find out more about it and get involved? If so, you need to know about a remarkable company called ASEA™.

THE SCIENCE OF *redox*

Understanding the power of this breakthrough means finding out about a process going on inside all of us. It's called redox technology, and if you've never heard of it, you're not alone. Most people haven't, even though it's going on in your own body, right this very minute.

Redox biochemistry is fundamental to good health. In fact, more than 30,000 peer-reviewed papers have been written about it—there is even a scientific journal dedicated to its study.

A CATEGORY, CREATED

Age, stress, and environmental toxins cause a natural decline in redox, which can have an impact on health.

Decades of laboratory testing and millions of research dollars led to the discovery that is now the basis of a breakthrough product technology that became the basis for ASEA™, a pristine solution that delivers redox technology, RENU28®, a revitalising whole-body skin care, and RENUAdvanced™ Intensive Redox Serum, an ultra-concentrated anti-aging blend.

These are US process patented products and are revolutionising the way people think about health and wellness—providing support where you need it most.

ASEA is leading the way in redox technology.

ASEA's redox-based innovations have changed the landscape of the wellness industry.

ASEA's proprietary patented process produces redox technology-based product lines.

BREAKTHROUGH *times two*

In a market that's overloaded with products that help you look and feel better, ASEA™ rises to the top. How?

By being different.

ASEA™ introduced redox-based products in two categories, one in the beverage category and the other in skin care; bringing revolutionary products to millions around the world.

ASEA is based on our redox proprietary breakthrough technology to bring this scientifically designed better-for-you product into your life.

RENU28® is whole-body skin care that has been shown to make visible improvements in skin, adding smoothness, evening texture, and increasing moisture and elasticity.

RENUAdvanced™ Intensive Redox Serum delivers ultra-concentrated redox molecules to specific areas of concern to boost anti-aging benefits.

Both RENU28 and Intensive Redox Serum are available as part of the complete RENUAdvanced Skin & Body Care system.

This is the power of ASEA's redox technology.

ASEA produces its one-of-a-kind products in an FDA-registered, NSF-certified facility, and they are redox certified by two third-party laboratories.

OUTSTANDING OPPORTUNITY

If hearing about ASEA has you excited, imagine the business potential of the company that pioneered it. Being involved with ASEA™—the only company with a redox supplement—can impact more than just your health; it can impact your financial future.

Starting an ASEA business allows you to realize your financial goals while giving you control of your time. More than 70% of people who start their own businesses list a common top reason for doing it: being their own boss. Sounds good, doesn't it?

The standard boss-employee paradigm is making way for the demand to work from home. Not just because people need control over how they earn their money, but because they need time freedom and more earning potential as well.

ASEA™ offers an opportunity for you to take part in the largest industry in the world, wellness—an industry that 18.2 million people are already a part of. You have an opportunity to leverage two massive mega-trends: the global shift toward embracing natural health and wellness solutions and the growing demand for the lifestyle freedom of a home-based business.

It's simple to get started. With a low-risk, low-cost entry point, you gain an immense opportunity to create a sizable income, without the headaches of traditional startups. You'll never have to worry about inventory, warehousing, employees, or payroll.

The ASEA™ opportunity allows you to weave your business around your busy schedule and take charge of how you earn your living.

INCOME YOUR WAY

If you're like most people, you're used to relying on a regular paycheck from an employer. But that norm is becoming less and less normal as more and more people are looking for—and creating—multiple income streams.

ASEA's generous compensation plan gives you multiple ways to earn. It's a great way to put your residual income plan into place, relying on ASEA's remarkably high retention rate, more than triple the 15–20% industry average.

At every level of ASEA's compensation plan, you can bring in extra income, from a few hundred to a few thousand dollars a month. Average commissions* at ASEA's executive ranks look something like this:

Calculations are based on 2018 weekly commissions data. Average paid rank is rounded to the nearest rank and is used to account for weekly paid rank variation. ASEA establishes this

calculation from individual associate paid rank data and only includes periods with earned commissions. Weekly incomes are multiplied by 4.33 to arrive at monthly incomes. This is not a

guarantee of a particular income. Individual results will vary. Currency shown in AUD.

Tens of thousands of ASEA™ associates around the world have found success creating substantial income and achieving their financial goals.

The ASEA compensation plan has also supported and rewarded many individuals who have committed themselves full-time to business-building, and as a result, have achieved financial independence. ASEA™ has even created an elite Million-Dollar Earners Club.

The customer base is unlimited, and the powerful, generous commission and bonus structure rewards associates every step of the way.
